

WILLIAM MULLINS COLONY

SOCIETY OF MAYFLOWER DESCENDANTS IN THE STATE OF FLORIDA ANNOUNCEMENTS

The Mullins Colony was organized January 21, 1999. The growth from 16 original members to 111 members is indicative of the increased interest in genealogy and history.

Our next Colony Meeting is scheduled for May 1st at 11:30 am at the Country Club of Ocala, 6823 SE 12th Cir., Ocala, FL 34480.

There are several prospective members researching their lineage to prove descent from a Mayflower passenger, and to join the Mullins Colony. We have over 40 junior members as well.

Our colony was named for William Mullins who came on the Mayflower with his wife and two children. Only his daughter Priscilla survived the first winter. She married

John Alden and left numerous descendants.

[Webmaster's Note: Today, many folks with the surname of Mullins claim to be descendants of William Mullins of the Mayflower. However, since his only surviving child was Priscilla, who married John Alden, this is impossible. All of the descendants of William Mullins are also Alden descendants, none bear the surname of Mullins (unless it is through marriage to another Mullins line). This is also true for the Latham surname. William Latham of the Mayflower had no known issue. Those with a Latham surname today claiming decendancy from the Mayflower are usually from James Chilton of the Mayflower. His granddaughter, Susannah Winslow, married Robert Latham (unrelated to William of the Mayflower).

LINKS TO FLORIDA COLONIES

Currently the Society of Mayflower Descendants in the State of Florida (FSMD) is divided into sixteen colonies located in different geographic areas of the state. Each colony is named after a Pilgrim that was aboard the *Mayflower* in 1620. It does not reflect the ancestry of its members, as some think. The members in each colony may have any number of Mayflower ancestors, that may, or may not, have the same name as their respective colony.
